

New year. New Approaches. New Markets. New Opportunities.

China

Do you have concerns about your supply chain?

A seminar to highlight common issues concerning **UK water regulations compliance** of products and materials from China; and explain sourcing products from China, ensuring manufacturing compliance in China and exporting to China.

- Are you developing a supply chain in China?
- Are you concerned about compliance with water regulations?
- Are you considering exporting to China?
- Do you need local help in China?

If you are involved in manufacturing, purchasing, importing or distributing water system or sanitary ware products from or to China you cannot afford to miss this seminar.

Speakers

Dr Guy Franklin, MD, WRc-NSF

Simon Warburton, Operations Manager,
WRc-NSF

Sam Ching, MD, ICS UK, Hong-Kong &
China

Date

Thursday 29th January 2009
10.00 – 13.45 (including Lunch)

Venue

Heritage Motor Centre
Banbury Road, Gaydon, Warwickshire, CV35 0BJ

Jointly presented by testing and certification provider **WRc-NSF Ltd** and **ICS China**, specialists in water fittings certification, factory auditing, supply chain development and marketing in China.

The seminar offers you the opportunity to learn from WRc-NSF's experience certifying and testing Chinese products and materials for the UK market and ICS's experience in assisting western companies to develop their supply chains in China.

Price per delegate £50 (incl VAT).
