

# Regulation of Drinking Water Contact Materials

Wednesday the 7<sup>th</sup> of November 2007

STEAM – The Museum of the Great Western Railway,  
Swindon, Wiltshire.

Approval bodies in Europe and North America have been making changes to the requirements for materials in contact with drinking water in response to increased interest from legislators.

This seminar will outline what those changes are and what manufacturers should do to check that their products comply with the new requirements.

Topics covered will include:

- UK Water Regulations Advisory Scheme (WRAS) Requirements
- UK Regulations 31 / DWI Approval
- North American NSF 61 Approval
- Product Marking under the European Construction Products Directive
- The European Acceptance Scheme

All the speakers have first hand knowledge of the approvals system and have helped numerous manufacturers gain UK, European and North American Approvals.

This seminar is being arranged by WRc-NSF, the largest laboratory for the testing of plumbing products in the UK. For further information please see [www.wrcnsf.com](http://www.wrcnsf.com).

Numbers are limited and will be allocated on a first come, first served basis.

For further details contact Sarah Hale on 01495 236 260 or [sarah.hale@wrcnsf.com](mailto:sarah.hale@wrcnsf.com).

# Regulation of Drinking Water Contact Materials

Wednesday the 7<sup>th</sup> of November 2007
